

CRL: SAVE TIME WITH REPAIR ADDENDUMS MADE FROM OUR INSPECTION REPORTS

We know you dread copying and pasting all those items to create your Inspection Response addendum. It's can be a pain. Now with our **Create Request List™ (CRL™)** feature, you can create a list easily and attach it to your regular repair addendum form right from your inspection report.

Easily add items to your list

No more copying and pasting — you can save precious time by using the inspection report.

Email or save the results

It's easy to share the results or to attach them to your addendum! Email it or download it right away.

Collaborate with your buyer

You can go over the items in the report with your buyer virtually and build your inspection Response Addendum at the SAME TIME!

Create Repair List for contractor

Your Buyer can use this same tool once they move in to create a Repair List for their Contractor or Handyman! Just edit the list to include the desired items.

Try it out yourself!

Try the demo below to see how fast you can create a repair list from the inspection report. No more cutting/pasting, plus you get to track all the requests and you can use the photos (if you want).
